Government Passes a Health Insurance Bill

Dear Friends & Colleagues,

Over the past few months I have received a lot of calls from customers about how the new Health Insurance Bill will affect them. I encourage everyone to *read* the bill before formulating an opinion and especially before getting in to a debate or argument about it. It's important to know the facts before making a judgment with any issue. I have included the following link which includes the "Senate Healthcare Bill" and the Reconciliation Act Amendments that modifies the bill.

Sincerely,
A.L.L. Insurance
